6) The President states
that the allotment in the Budget for
Road repairs is the very lowest
minimum required for ordinary repairs
and his request for a special
grant of Rs. 63257 for special
repairs of roads in connection with
the visit of H. E. The Viceroy seems
to be reasonable. The last para of
his letter (Paper under disposal) goes
to indicate that the special work
are going on.

There are two distinct items referred to in this file, A) the provision of Rs 55353 in the Municipal Budget for road repairs, & B) the special grant for works connected with the Bengal visit - debenture to the Bengal visit expenditure.

1) As regards A, Sir, in view of the financial position of the Municipality cut it down to Rs 30,092. In regard to this retrenchment, the President made representations & Sir ultimately said that the expenditure on this head may go up to Rs 50,000. There was no question of a state grant. All the President wanted was the restoration of the provision made by them.

2) As regards B, the President wanted Rs 20,825 or in round figures 21,000 Rs. Govt. sanctioned only Rs 18,000, observing that that was enough.

the Resident wants is that item
No 1 may be sanctioned. As against
the sum of Rs 6325 required, there
is a sum of Rs 3500 available
out of the sanctioned grant of
Rs 18000. The excess that has to be

an additional grant of Rs 2416-3-8 for meeting the expenditure incurred in excess of the sanctioned grant of Rs 14500/- Thus the total amount of additional grant required is Rs 8741-3-8 and according to Dewan's order at para 23 of the notes only a sum of Rs 3500/- in addition to Rs 14500/- can be sanctioned.

As the expenditure has already been incurred the only courses open are
(1) to sanction an additional grant of Rs 8741-3-8
or (2) to give only an additional sum of Rs 3500/- and to ask the Municipality to meet the balance out of the Municipal funds. The latter course seems not possible as it is very unlikely that the

*Recd. P.M. 23/11/23

S. S. S. S.*

SIR,

I have the honour to acknowledge with thanks the receipt of Government Proceedings No. 7548-51/V.V.4-23 dated 12th November 1923, ordering the payment of Rs5,000 to the Municipality by the Public Works Department, on account of the usual annual grant towards the maintenance of provincial roads running through the City and promising consideration of the enhancement of the rates presently.

2. With regard to the extra sum of Rs6,325 required for special road repairs in connection with the Viceregal Visit as an exceptional measure, I am to invite reference to my letters Nos. 2 & 7 dated 11th and 26th July 1923 respectively in connection with the Municipal budget, wherefrom it will be seen that the original allotment of Rs55,353 made by the Municipal Council under "Repairs, Public Works", is the very lowest possible minimum absolutely found necessary for the mere ordinary repairs of roads and includes no provision whatsoever for special repairs of certain important and main roads, that have to be indispensably

x Not recd here.

93

carried out in connection with the Viceregal Visit. No portion of this original allotment of Rs55,353 can be diverted to such special repairs without great hardship and inconvenience to the public and detriment to the condition of the other City roads, which on account of utter failure of rains, now require even a larger outlay for their maintenance. And with all due deference I may be permitted to submit that nowhere in such references nor in Government Order No. L.1645/MI.167-22-33 dated 22nd August 1923 sanctioning the restoration of the Council's original allotment for road repairs, can be gathered any idea that the Municipal President had asked for Rs50,000 for road repairs and this amount was sanctioned on the distinct understanding that the Municipal Council should find money out of the Municipal Revenues" for such special improvements necessitated by the Viceregal Visit. On the contrary, it was clearly represented to Government in paragraph 2 of my letter No. 7 dated 26th July 1923 that "the special grant required for carrying out all the unforeseen works during the Viceregal Visit was estimated at Rs20,825 as per details furnished in the accompanying statement if the amount provided in the Municipal budget for the year 1923-1924 for Road repairs viz Rs55,353 is restored as mentioned above", thereby emphasising that if the Municipal allotment of Rs55,353 were restored, a sum of Rs20,805 would be required for Viceregal expenditure.

3. It was in view of these facts that after good deal of anxious consideration that I framed our estimate for Viceregal Visit for a lowest sum possible viz Rs21,000, against which Government in their letter No. 203/C.B.16-23-5 dated 18th July 1923 promised a special grant from State Funds, of Rs18,000 for such expenditure. What has been requested is only Rs3,000 more for the purpose which I need hardly submit is very small compared to grants for such Visits on previous occasions.

4. Under these circumstances I request that you may be so good as to submit the matter for the gracious reconsideration of Government and to obtain their sanction for the grant of Rs6,325 as originally requested, in order to enable me to make payments to Contractors who have been working under pressure against odds and dry weather and who are being given small advances or part payments to keep them going.

I have the honour to be,

Sir,

Your most obedient servant,

President.
